Learning Objectives, Modules (Lessons), Assignments, and Outline:

Course Objectives:

Federal Laws – Module 1

The student will gain a solid understanding of the topics required for 2026 NMLS licensing education, including upcoming changes in mortgage lending. The lesson covers TILA disclosure timing requirements and tolerance rules to reinforce clear and accurate disclosure practices. It also reviews ECOA credit decision timelines, adverse action notice requirements, and record-retention standards. In addition, the lesson examines predatory lending concerns and the laws that govern ethical conduct, including a brief overview of common forms of unethical behavior.

Ethics – Module 2

By the end of this lesson, students will be able to explain the core principles of ethics in mortgage lending, identify the major regulatory and industry changes taking effect in 2026, and understand current forecasts from leading mortgage-market entities regarding interest rates and housing affordability. Students will also be able to discuss the evolving regulatory landscape, including the uncertainty surrounding CFPB actions, and assess emerging cybersecurity and artificial-intelligence challenges that impact fair lending, consumer protection, and operational risk.

This lesson strengthens students' understanding of ethical standards and the legislative framework that supports them. It prepares mortgage professionals to identify, prevent, and respond to modern predatory lending practices while maintaining strong data-security practices and meeting evolving expectations for digital-mortgage compliance.

Nontraditional Mortgage Products – Module 3

By the end of this lesson, students will be able to evaluate current and emerging mortgage loan program updates, including pending regulatory changes, and determine how these shifts may positively or negatively impact consumers based on individual circumstances. Students will identify specialized loan programs designed for unique borrower profiles and match them to clients who may benefit from them. Students will also analyze key provisions of the ROAD to Housing Act and the HUD Home Loan Program to understand how federal housing reforms shape modern lending practices and consumer outcomes. In addition, a review of NAR, Realtor.com and HAHB forecasts for housing market future.

Digital Mortgage Compliance – Module 4

By the end of this lesson, students will be able to understand the legal framework governing digital mortgage practices (including eSIGN, UETA, and the SAFE Act), the processes involved in eClosings and eNotes, and identify key cybersecurity obligations in a digital-first lending environment. Students will also be able to evaluate real world digital compliance successes and failures and apply the regulatory and practical skills needed to operate compliantly as licensed mortgage professionals in an industry increasingly dependent on online access and digital workflows.
